|-----------------------|---|
| Contaminants Observed | No |
| Trichome Density | Dense |
| Intact Trichomes | Many |
| Structure | Typical |
| Trim | 7.8 |
| Flower Maturity | 8 |
| Tactile | 6.2 |
| Uniqueness | Common |
| Notes | This is a really nice sample of flower. It is absolutely sparkling with intact trichomes. The flower structure is pretty typical, especially for a sour variety. The overall appearance of the flower is 100% on point. |

Flavor

7.4

| | |
|-------------|---|
| Dry Hit | 6 |
| Body | Full-bodied |
| Smoothness | 8.5 |
| Burn | Ideal |
| Intensity | 7.6 |
| Longevity | 7.7 |
| Complexity | 7 |
| Tastes Like | Rich earth, white pepper, and cedar wood |
| Uniqueness | Common |
| Notes | The dry hit was smooth and subtle. The smoke was extremely expansive and almost made me cough hard, but it was smooth and rich. The flavor is complex, with a well balanced blend of dark rich earth and white pepper, and undertones of cedar wood. The flavor intensity increases steadily throughout the smoking experience. |

| Physical Effect Type | Relaxed |
| Mental Effect Type | Relaxed |
| Onset | Rapid |
| Intensity | STRONG |
| Duration | SUSTAINED |
| After Effect | RELAXED |
| Duration of After Effect | Moderate |
| Uniqueness | Uncommon |
| Notes | To be completely honest, I was so high that I am having a difficult time finishing this assessment. The effects were rapid giving me an almost immediate head change. I could feel my eyes getting low and red. The mental and physical effects are very relaxing and ease all the aches and pains. The effects were long-lasting, with really relaxing after effects. I really enjoyed the flavor and effects of this flower, so much in fact I immediately rolled another joint for after this assessment. |
